BIBLIOGRAPHY OF AMERICAN BOTANY.

THE Bibliography Committee of American botanists has just completed its first year of organized work in the production of an author catalogue of papers relating to American Botany. This has been printed in the monthly issues of the *Bulletin of the Torrey Botanical Club* and then reprinted on library cards by the Cambridge Botanical Supply Co. The editors have endeavored to make the record as complete as possible and it includes 575 titles. The committee and the editors earnestly request that their attention be called to omissions and that all interested aid in insuring completeness.

Foreign botanists are particularly requested to call our attention to any of their writings which refer to American plants. Communications may be addressed to the Editor of the *Torrey Botanical Club*, Columbia College, New York City.

GENERAL.

ON January 10th, Dr. George M. Dawson, C. M. G., F. R. S., was appointed Director of the Geological Survey of Canada, succeeding Dr. Selwyn, retired.
